DETAILED ACTION

Allowable Subject Matter

1. **Claims 12, 14 and 17 are allowed.**
2. The following is an examiner's statement of reasons for allowance:

Claims 12 and 14 are allowable because the prior art fails to disclose or make obvious, either singly or in combination, a method for making measurement of a rotating object comprising, in addition to the other recited features of the claim, "delaying the output for at least one revolution of the object following the generation of the signal".

Claim 17 is allowable because the prior art fails to disclose or make obvious, either singly or in combination, a method for making measurement of a rotating object comprising, in addition to the other recited features of the claim, "causing a clock pulse to start, having a duration substantially equal to at least one revolution of the object, each time a signal from the detector is generated; and delaying the output until the end of the clock pulse".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
